THE WORLD NEEDS BURNING MAN. BURNING MAN NEEDS YOU!

We are all missing our beloved Black Rock City. This temporary city in the desert brings so much growth, energy, and joy to many. In times like these, when many of us are seeking the space to reflect from all corners of the world, know that your Burning Man family is here with and for you. Take a moment to color this page and feel a little love from Home.

If you've enjoyed some playa magic by slowing down and expressing yourself through art. Take a photo and post it to Instagram, to inspire us and others.
